SOLAR HEAT.—The expansive influence of solar heat on the dome of the Capitol at Washington is said to be so considerable that ultimately the building must be greatly damaged by it. Experiments were lately made to test the extent of this influence. The dome, we need not say, is of iron, a substance which, as is well known, expands more than stone. A long plumb line was fastened to the under side of the ceiling of the rotunds, and extended to the stone pavement below. The plummet described daily an eliptical curve, of which the longest diameter was from east to west, and amounted in hot. sunny days to four or five inches. Professor Henry of the Smithsonian Institut, remarks in regard to this, "By molecular action of this kind, perpetually continued, time, the slow but sure destroyer, levels with the ground the loftiest monuments of human pride."

THE PUBLIC DEBT .- The President has received from an individual belonging in California, a plan for paying off immediately the pub lie debt. He proposes a grand international gift exhibition, to be held in some one of the centrally located cities during the last year of Grant's administration, one thousand million tickets, at five dollars each, gold coin, to be issued, the sum of two thousand million dollars to be distributed as gilts in sums ranging from one hundred dollars up to five hundred million dollars, the remainder, after paying expenses, to be applied to the extinction of the debt and the building of a magnificent new national capitol in the most central part of the country. He assures the President that it would be a success. that it would raise us materially in the eyes of the world, and that foreigners would deem us the most progressive people of the world, and would exclaim, "Great are the people of the United States of America."

SWEET QUININE

Is a Recent Improvement.

Replaces the use of the BITTER SULPHATE QUININE, with which all are familiar. Dose for dose it is WARRANTED

Fully equal in every way to Bitter Quinine, And, like it, is the one

Great, Positive and Unfailing CURE for all DISEASES OF MALARIOUS ORIGIN.

Fever and Ague, Intermittent Fever, Chill Fever. Remittent Fever, Bilious Fever, Dumb Ague.

and the long train of disorders following these when neglected.

SWEET QUININE

s made solely from Peruvian Park (so is Bitter Quinine,) therefore it is of Vegetable origin, and not a Mineral Poison, but on the contrary is proved to be one of the elements found in the blood of all healthy persons.

SWEET QUININE acts as an antidote to, as well as a cure for, malarial or miasmatic poison, the absorption of which by the lungs causes Intermittent Fevers, etc. The only advantage claimed for SWEET QUININE

over the use of old Bitter Quinine is the entire absence of that intense, persistent bitterness, which in the latter is an insurmountable obsta ele to its use with most persons, and always with children.

SWEET QUININE is in two forms-in Powder, for the use of Physicians and Druggists, and Fluid, for use in the family and for the general public. STEARNS, FARR & CO., Manufacturing Chemists,

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-kcopers.

More than 450,000 of these watches are now speaking for themselves in the pockets of the people-a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which rer. ders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keep-

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universally admitted by watchmakers to the best, are used in all grades of Waltham Watches. All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning, necessary in other watches.

Our new patentstem-winder, or keyless watch, s already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in all portions of the U.S. where watchmakers do not abound, watches with the above-mentioned improvements which tend to nsure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company. To prevent imposition, buyers should see lowing trade marks:

that every watch should bear either of the fol-American Watch Co ...... Waltham, Mass. Amn. Watch Co ...... Waltham, Mass. American Watch Co.,

...... Waltham, Mass. Crescent street ..... Appleton, Tracy & Co.......... Waltham, Mass. Waltham Watch Co ...... Waltham, Mass.

P. S. Bartlett.......Waltham, Mass. Home Watch Co..... Boston, For sale at retail by all respectable dealers.

A descriptive circular, giving much useful information, sent to any address on application. No watches retailed by the Company. Ad-ROBBINS & APPLETON,

Gen. Agts., 182 Broadway,

NEW YORK. Ask to see the new FULL-PLATE WATCH, bearing the trade mark "AMERI-CAN WATCH Co., Crescent st., Waltham, Mass." It is by far the best full-plate watch made in the United States, and surpasses anything heretofore made in this country for Railway Engineers, Conductors, &c. ap 19-eo3m
